As far as I know, I'm the only one who calls it like I see it. Are you ready for the truth? Every agency is built on a lie. As in absolutely no one can actually tell what's going on, what happened or why. No one ever gets the truth out of an agency, it's all secret and shady. The secrecy here is so much so that no one even knows what THE AGENCY IS. And people aren't even able to find out what it is. I mean, I've pretty much told everyone in the world, and no one has gotten it, unless they've done some research. Which you just don't do. You never know what you're going to get out of an agency. You never know who you're working with and you never know who you're working for. And if you're smart and you know

---

the reality of what's going on, you'll make sure you keep yourself out of it completely. That's what I'm trying to do. I'm not an agent, I'm a janitor. I just clean up the mess for the agency. I take care of those who shouldn't. I'm there to clean up all the mess and have nothing to do with any of it. And that's what I'm going to show you guys today. I'm going to show you the secrets of the agency. I'm going to show you what no one knows. I'm going to show you the truth. I'm going to show you...The Agency. Nothing More Is Real The agency as a whole existed after the Martian invasion. Now, don't look at me like that, this is just the bare facts, this isn't a metaphor or anything. Our civilization was completely annihilated in a brutal attack. We were left with a handful of survivors, like so many before. But, out of this handful came something... But as far as I could tell, it wasn't like anything else I'd ever seen. I was an explorer. My job was to find the truth. To find the truth about everything. "I wonder..." I

---

thought to myself, "What does the universe look like?" "I wonder..." I wondered, "Could I be the one who was there to witness it all? I

"I've been watching Volcan progress ever since the Kickstarter finished. It's one of the most well-polished and refined games I've seen, and it's immediately very fun and fascinating to play. I can't wait to dig into it more." —James Walton, IndieGames.com "Volcan is a very great title that captures the idea of a fast paced shooter." —Bubblecast "Sollum is the kind of character that you can't help but root for as you watch him struggle against the odds. The end result is an experience that reminds you of how hectic a lot of other games can be, but with a good amount of polish." —Brad Fitch, Escapist Magazine "Sollum is an interesting character and a fun, well-written side-character. You're itching to jump into his way of life and see what happens next. I'm excited to see more of Sollum's story unfold."

**ST-0130 \* Supagaa's cutest gacha release but also the \* cutest collaboration of all time! Sorry, I'm not getting back to the Cabbage land, but please put in your best shots! I love cheesy lines, a party on a boat, a cat nip, and a Sasuga nametag! I don't think it hurts to have some of both. \* The Anniversary version of Ogiue! \* Attack shall return as a solo gacha! \* The Hana nametag for the girl of the accent line. \* L-Boppy's Sousou in her frosty Winter incarnation! No snow, obviously, but minus the chibi eyes. \* The Summer incarnation of the dork gacha fare. No offense to the horse, you know what goes with business casual. \* The \* CFA for the active 15. \* L-Boppy's Stunt Mode "battlewear". Her original summer complexion backs it up! \* Another perfect anniversary release: the King. \* Sorta the relative of the Lance and L-Boppy, based off a former appearance from Kuzuha. \* Kasumi's don't give a damn mode! \* Ino's next evolution! \* New Yuru-Onna White! Unplayed in a gacha because the Yuru-Onna Shobu is moe as hell. \* New costume for the MM mode of his former character. Pretty interesting, I'll say. \* Another layer to the already MOE character of the \* Bokujou. \* The other case of the flying kitten mode is the Eye! \* Go-Go's Fall mode! \* The Heroine Ichi Suwa is**
