document.getElementById('link').onclick not working I need to open a page "pdf.htm" on click of a button. The page "pdf.htm" opens up nicely, but the code inside onclick attribute in "a" tag, isn't working. Click Here to Open function display\_pdf(url){ document.getElementById('mydiv').style.display = "block"; } A: You need to set the id and the onclick to the correct attributes for the anchor tag. It is incorrect to use javascript for this. Your code would need to be changed to: Click Here to Open And then your function would need to be function display\_pdf(url){ document.getElementById('clickHere').style.display = "block"; } Make sure that if there are already other tags within the page that has the id "mydiv", you'll want to avoid overwriting the default styling.
