## **AutoCAD Crack Incl Product Key [Mac/Win] [Latest] 2022**

**Download**

### **AutoCAD 2022 [New]**

Software description AutoCAD is a 2D drafting and design software application. History AutoCAD is an implementation of the AECConnect program, a collaboration of companies including Hewlett-Packard, Remington Rand, and Rockwell. Development on the 2D drafting program began in 1979. CAD users were first presented with AutoCAD for the Apple II in December 1982. Autodesk, Inc., was founded in 1982 and holds the AutoCAD trademark. The company also created AutoCAD LT, a free 2D drafting and design program, in 1992. Autodesk first introduced AutoCAD LT in 1992 for MS-DOS and Windows in the United States, Canada, and Mexico, with plans to release a 3D version in early 1993. In 1995, Autodesk acquired the rights to the 3D version of AutoCAD LT. In 1997, Autodesk introduced AutoCAD LT for Macintosh and Windows NT, which was also free. In 1997, Autodesk introduced AutoCAD for Windows NT and NT 2000, also free. AutoCAD 2000 introduced Autodesk DWG, a comprehensive, three-dimensional version of AutoCAD, for \$2,000. In 2003, Autodesk released AutoCAD 2004 for the first time as a fully integrated, stand-alone software package, priced at \$2,000. Also in 2003, Autodesk introduced AutoCAD Architectural Desktop for Windows and AutoCAD Civil 3D for Windows. In 2007, Autodesk introduced AutoCAD LT 2009, a free version of AutoCAD LT. In 2009, Autodesk announced AutoCAD Architecture and AutoCAD MEP and Architecture, two architectural versions of AutoCAD. In 2010, Autodesk announced AutoCAD 3D for Windows and AutoCAD for Mac, along with AutoCAD Map 3D for Windows and AutoCAD Map 3D for Mac. In 2012, Autodesk introduced Autodesk Inventor for Windows and Autodesk Navisworks for Windows, and Autodesk Revit for Windows and Autodesk 3DVIA for Windows. AutoCAD Civil 3D 2016 was released in 2016, which was made available for Microsoft Windows. In 2013, Autodesk released AutoCAD Architecture and AutoCAD MEP for Mac, and AutoCAD Architecture for Windows. In 2015, Autodesk

### **AutoCAD Crack**

Application scripting AutoLISP is a kind of object-oriented programming. In AutoCAD, AutoLISP may be used for custom functionality. A custom function must be written in AutoLISP code and must be registered in a custom function library for it to work. AutoLISP language was originally developed for the UNIX operating system, and is supported only on the Microsoft Windows operating system. The functionality provided by AutoLISP can be expanded with the use of external libraries such as MathML, XML, Java. In the late 1990s AutoCAD introduced a VBA-like user interface scripting called Visual LISP. It is a variant of LISP with some more features to enable the user to create user interface applications with AutoCAD. Visual LISP has been discontinued as of AutoCAD 2008. VBA is an interface scripting language similar to AutoLISP, but with a different syntax. In addition, it is based on Visual Basic and Microsoft Excel. VBA can be used with AutoCAD to create custom graphical user interfaces. VBA's functionality is not limited to graphical interfaces; it can be used with AutoCAD's command line. VBA cannot be used to create user interfaces, or to create custom code. There is no

---

direct way to create custom user interfaces with VBA. However, some commercial or free tools have been created for creating custom interfaces. Autodesk Exchange Apps is an application software category for products that plug into the AutoCAD platform. The Exchange Apps are add-on software for AutoCAD that offer specific functionality. They range from time-saving commands and visual tools to preconfigured parts and functions. There are over 1,200 Exchange Apps available. AutoCAD Architecture is a product providing methods and code snippets to build an extension in the AutoCAD environment. It has been discontinued as of AutoCAD 2008. AutoCAD Electrical is an application providing methods and code snippets to build an extension in the AutoCAD environment. It has been discontinued as of AutoCAD 2008. AutoCAD Civil 3D is an application providing methods and code snippets to build an extension in the AutoCAD environment. It has been discontinued as of AutoCAD 2008.
