Fast registration with registration code at Customer Service.Q: Adding more users with facebook app I have a basic question regarding the facebook app. How can I add more users to the facebook app? I used the update_feed.php script and added the next thing to the body: { "app_id": "xxxxxxx", "url": "", "status": { "code": 200 } } But it only updated the account which already exists in the app, with the specified app_id. Thanks in advance for the help. A: You can either use the Graph API explorer to create new user accounts. 6d1f23a050
